## SUMMARY

Highly motivated Full-stack Developer with experience in building applications using MERN stack. A quick learner with a self-learning attitude, I am passionate about problem-solving and keeping up-to-date with the latest technologies. With good communication skills and a great team-player, I am seeking a challenging role in a dynamic organization where I can apply my technical skills and contribute to the growth of the company.

## PROJECTS

### Netflix Clone (Live)

React, CSS, Rapid API

A Netflix clone front-end that fetches data of movies and details using Rapid API and presents it using React.js, API, and CSS.
