Technical Skills and Expertise

Languages: JavaScript (ES6+), HTML5, CSS3
Frontend Libraries & Frameworks: React.js, Redux Toolkit, RTK Query, Tailwind CSS, Material UI, Chakra UI
Backend Technologies: Node.js, Express.js, RESTful API Development, Mongoose
Databases & Cloud: MongoDB, SQL, AWS (cloud services and deployment)
Tools & Platforms: Git, GitHub, GitLab, Figma, Visual Studio Code
Core Concepts: API Integration, Authentication (JWT), State Management, Responsive Design, Real-time Communication (WebSockets/MQTT), Authentication, Password Hashing

Professional Experience

•Suhora Technologies - (Space analytics simplified) *Software Engineer | April 2025 - Present*

- Implemented Role-Based Access Control (RBAC) and secure session-based authentication with concurrent login prevention to enhance application security.
- Developed multi-session management with automatic logout from active sessions to ensure account protection and compliance.
- Designed and developed a fully authenticated order management system with email verification, order lifecycle tracking, and status monitoring.
- Built and maintained image ordering, archiving, and satellite tasking pipelines to streamline geospatial data operations.
- Integrated real-time ship detection and tracking features within a geospatial dashboard, improving monitoring and decision-making capabilities.

•Galler India - (LMD Hitech India Pvt Limited) *SDE | jan 2025 - April 2025*

- Used Nodejs, Express js, PgSql, Prisma,Mongodb, React, Redux, MaterialUI,MQTT, sockets, joi,
- Device Onboarding Management – Users can add IoT devices, link APIs for communication, fetch real-time data via MQTT/WebSockets, and store onboarding details in MongoDB.
- SaaS Platform for Organizations – Organizations can register, manage their devices, users, and settings on the platform. Data visualization for insights and analytics
- Role-Based Access Control (RBAC) and Ownership Transfer (OT) features .

•OneVarsity EdTech Private Limited *Full Stack Engineer | Dec 2023 - Jan 2025*

- Integrated multiple EdTech platforms for assessments and courses in the library section.
- Managed the user lifecycle, enabling complete academic and professional profile management.
- Developed a guest faculty hiring feature for course publication and internal management and Integrated Razorpay for secure and efficient payment processing.

Key Projects

•Chill Junction — Social Media App *Project Link*
React, TypeScript, AppWrite, Tailwind CSS Live Link

- Developed user authentication with multiple options, including guest login, enabling flexible access for different types of users.
- Created a robust CRUD system allowing users to manage posts and profiles seamlessly.
- Implemented infinite scrolling for enhanced user experience, optimizing performance with lazy loading.

•Anjaan Baba Store — E-commerce Web App *Project Link*
React JS, React Context API , React Router v6, CSS Modules ,Mockbee as mockbackend Live Link

- Built a scalable product listing page with sorting, filtering, and pagination functionalities for a smooth browsing experience.
- Integrated a complete shopping cart and checkout process, supporting address and coupon management, with RazorPay payment gateway for secure transactions.

EDUCATION

–B.sc Physical Science with Computer Science *2019-22*
Shyam Lal College (University of Delhi) , Sahadara, East Delhi CGPA: 8.27

–Intermediate (Class 12th) *2016-18*
Naga Ji Saraswati Vidya Mandir Maldepur , Ballia, Uttar Padesh Percentage: 75
